ADMINISTRATOR/TEACHER TEAMS TRANSFORMING EDUCATION

19-21 September 2023

Hosted by: International Trilingual School of Warsaw
Including hotel and meals!

Join us for this two-day event where educators unite to transform education to prepare students for their ever-changing world. Let's create a grassroots movement that reshapes education and inspires a future-ready generation.

As we look to the future, we face a rapidly changing world driven by technological advances, globalization, and shifting societal values. We must think creatively and critically about how we can adapt our education system to meet the needs of our students and prepare them for success in this changing world.

“AS I SEE IT, THE AIMS OF EDUCATION ARE TO ENABLE STUDENTS TO UNDERSTAND THE WORLD AROUND THEM AND THE TALENTS WITHIN THEM SO THAT THEY CAN BECOME FULFILLED INDIVIDUALS AND ACTIVE, COMPASSIONATE CITIZENS.” - SIR KEN ROBINSON

01

In 1991 international school educators came together and, over several years, developed the International School Curriculum Project. The International Baccalaureate Organization later adopted ISCP as the IB Primary Years Program. This may be the moment to form another grassroots movement to design a relevant framework to serve our young people.

02

Join us for this two-day event where educators unite to transform education to prepare students for an ever-changing world. To create a more future-ready education, we will examine current education frameworks, especially science, humanities, and social studies. During the two days, participants will be introduced to a prototype framework called IMPACT and collaborate with the creator to examine ways to implement it into your existing program.

03

- Introduction to the IMPACT framework, a prototype designed to create a future-ready education system.
- Overview of the critical components and principles of the IMPACT framework, emphasizing its relevance to science, humanities, and social studies.
- Group discussions and brainstorming sessions to explore the potential of the IMPACT framework in transforming existing educational programs.

04

- Collaborative workshops facilitated by the creator of the IMPACT framework encourage participants to delve deeper into specific aspects of the framework and explore ways to integrate them into their curriculum.
- Interactive sessions where participants share their ideas, challenges, and potential solutions for implementing the IMPACT framework.
- The event aims to foster a spirit of collaboration and grassroots involvement to serve the needs of today's young people, preparing them for the challenges and opportunities of the future.
